▣ Welcome

I am currently the Dean of the School of Business and Technology where I manage a global team supporting our MBA, MS in Information Technology, and the MS and PhD in Organization and Management programs. In addition, I collaborate with university leadership as well as academic officials from other institutions, and provide enrollment, financial, budgeting, program, quality, regulatory and human resource management. I am also the primary architect of the successful online BS and MS in Information Technology programs at Capella University, and have developed and taught undergraduate and graduate courses in the areas of business and IT. Prior to coming to Capella University, I spent two decades working with software development and software project management activities involving mission-critical and life-critical software applications for Fortune 500 companies.

▣ Credentials

I received my PhD in Applied Management and Decision Sciences from Walden University, an MS in Software Engineering from the University of St. Thomas in St. Paul, Minnesota, and a BS in Applied Mathematics from the University of Wisconsin-Stout. I have also published a number of papers on topics such as IT management, software development, and project management. I hold eight patents on mission-critical IT implementations. I am also a longtime member of the IEEE, ACM, and ASQ, and currently serves on the Advisory Board of NUTN. I have held executive level positions with the ACM SIGITE organization as well as the Minnesota Information Professional Society.
